

SIATEX  
ART

This catalog is a presentation of the latest collection of fences from the ART line by SIATEX. Projects were based on the latest market trends and the experience of the creators, creating models that are as attractive as usable.

We hope that you will find among them not only your dream home solution, but also inspiration for further changes and improving the quality of life.

Welcome.

# line Classic ..... 05

The classic line of fences with a universal form will perfectly fit both modern construction and traditional architectural solutions. A practical and modern solution.

# line Wall ..... 11

A line of fences with a wide range of applications, combining a passion for privacy and botanical forms - for all those for whom the choice is important.

# line Modern ..... 17

Unpredictable but composed. The Modern line will make it stand out from other fences, going beyond the usual patterns. For individualists who value style.

# line Classic

A **practical and modern solution** that allows you to give your surroundings a balanced style. Thanks to its simple, massive structure, it will not only resonate with the architecture of our house, but also become a symbol of the host's stability and character. The solution is recommended for both classical and modern architecture

# technical data

span Classic

wicket Classic

the gate is opening Classic

sliding gate Classic

The simplicity of this solution is its strength. It accompanies the home subtly and with class, emphasizing the geometry of the space, building respect with its massive structure. A form that will last for years.

# line Wall

The Wall line, combining delicate, botanical forms with massive, solid elements, can be defined as **a combination of privacy and choice**. Thanks to the multitude of solutions, we can not only allow ourselves to play with the form of our fence, but also create solutions individually tailored to the environment.

# technical data

**span Wall**  
(option to personalize the pattern and layout of the segments)

**wicket Wall**

**the gate is opening Wall**

**sliding gate Wall**

By giving a choice, is open to the owner's invention, allows her to change and evolve. The raw form is combined with a subtle pattern, creating a new definition of intimacy.

# line Modern

Combining unconventional solutions in a geometric, irregular form, the Modern line is definitely a **solution for individualists**. The unusual form of this line of fences stands out and gives the space a specific character – it is therefore especially suitable as a background for modern construction.

# technical data

span Modern

wicket Modern

the gate is opening Modern

sliding gate Modern

Restless, dynamically escaping any definition.  
An idea is not only a form, but also what is in between  
- a space that raises more questions than answers.

# color scheme

We understand how important it is to be able to create a custom-made fence for your home – both in terms of form and color. To meet the expectations, we have created a color palette in which the ART collection of fences looks best.

The following list is a palette from which you can choose the preferred color of your fence, tailored to your individual expectations.

RAL 7016  
ANTHRACITE

RAL 9005  
BLACK

RAL 6009  
FIR GREEN

RAL 6005  
WINE RED

RAL 8017  
BROWN

RAL 5008  
GRAY BLUE

RAL 9022  
SILVER PEARL

RAL 9016  
WHITE

RAL 7006  
GRAY BEIGE

# accessories

Your fence should be supplemented with additional elements, facilitating the use of the gate or wicket itself, as well as ensuring comfort and safety in everyday operation. So we present you with a sample set of accessories, which complemented the collection of ART will become even more functional.

The full range of available accessories can be found on our website [www.siatex.info](http://www.siatex.info) in the Accessories tab.

Touch sensor - BKCR MODEL  
Manufacturer - PROXIMA

Door handle - model 3006C  
Manufacturer - LOCINOX

Handrail - model K0652  
Manufacturer - KIPP

# Palisade fences

The elegant, minimalist design of the palisade fits perfectly with modern architecture. Complete fences consist of palisade modules, a wicket and a sliding or swing gate. All elements of the fence are galvanized and powder coated.

Currently, we offer three fencing designs that are most often chosen by our clients, they are PALISADE 60, 80 and 100. We also make this design according to non-standard, individual projects and orders. As the number, type and spacing of individual rails in the span is not imposed permanently, the customer has the option to create his own span composition.

It is also possible to combine our metal palisade profiles with wooden or wood-like panels, thus achieving a unique design.

Palisade profiles are available in height sizes from 60 to 160 mm.

## palisade 60

It captivates with its appearance and functionality.  
It fits perfectly with modern architecture.

## palisade 80

Timeless, minimalist design.  
An alternative to traditional fences.

## palisade 100

It guarantees a sense of privacy and protects  
against noise and dust from the street.
